Support for Staff:

Resources to support CEIAG teaching and learning and CEIAG newsletters can be found in J Drive.

Employers:

- Would you like to be involved with our Mock Interviews?
- Could you offer one of our students a Work Experience placement?
- Are you able to attend our Futures Evening?.
- As a specialist in your field would you like to inform our students of your career pathway and the labour market via an assembly or curriculum talk?

If you would like to support our students then please contact Mrs Telling for more details.

CEIAG Impact:

Did you know? All students are required by the new law on Raising the Participation Age to continue in education or training until they are 18. This could be through:

- Full time study in College or with a training provider
- Full time work or volunteering combined with part time education or training
- An Apprenticeship

We are committed to raising the aspirations of all of our students to ensure they are well equipped to make the right choices about their futures and chosen career pathways. Our aim is to support students in the various stages of progression and transition.

Every September we request information from our Post 16 providers so that we can track our students into their next destination at KS5 and higher education. We also monitor the careers experiences of all of our students throughout their time at Nova Hreod Academy. This allows us to highlight students who may potentially struggle with the transition or with access to further education.

Our careers programme is supported by our Senior Leadership Team with Mr S Thomas appointed as the careers lead.
