Dear Parent/Carer,

This letter outlines further information about the Y9 options evening on 18th March. The evening will run from 5PM until 7PM.

During the evening, there will be a presentation including information about the options process, how to select options and other useful information. There will also be presentations from the Faculty Leaders for Maths, English and Science explaining how their GCSE courses run and how to set your child up for success.

There will be a stall for each of the options subjects that are being offered that parents/carers and students can visit, depending on their child's interests.

There will be two opportunities to hear the presentation; at 5PM and at 5.45PM. They will be exactly the same so please only attend one. Therefore, if it suits you to attend later, there is no need to arrive for 5PM and once you have visited the stalls that are relevant to your child, there is no need to stay until 7PM.

We recommend that students come to this event with their parents/carers.

On arrival at the event, your child will receive a letter outlining which pathway they have been allocated to and then the pathways will be explained as part of the presentation.

You can find our webpage with information about options here: [Year 9 Options](#) – this is in the process of being updated and will have the options booklets, the presentation from options evening and videos from the options subjects by 18th March.

Yours faithfully,

Mrs S Unwin

Senior Vice Principal
